I went to George on a whim when I needed a quick inspection. I was somewhat hesitant because I've been with another mechanic for several years, but I couldn't be happier with my decision. George was extremely thorough and informative when I asked him questions. He gave me great advice and is genuinely a great guy. 100% worth doing business with him and will now be bringing my car to him in the future!

We've been going to George for nearly ten years. Never had an issue with good prices and honest assessments. A guy you can trust.

High quality parts and low labor fees.

The starter in my car failed and I had to replace it at very short notice. George's was nearby, so I defaulted to his auto repair. After only 4 hours, my car was ready for pickup. I saw on the invoice that he used a high quality part for the replacement and he also charged a modest labor fee. Very nice man, I don't see any reason to go to a different auto repair in the future.

George is an honest, fair and friendly mechanic. I'm so happy I was referred to him by a friend as I was brand new to the area. Now I won't use anyone else for my auto repair needs!

I drive all the way from upper Marlboro to get my car service at Georges because of the trust. I always feel like I'm in good hands.

I went to George in February for a big repair where my car basically died on me at the moment. I realized today while looking to get my brakes done (of course going back to George) I never posted a review for what he did for me. Its my first time owning a car really and I know nothing about cars. George was the first mechanic I called that was close to me and actually set me up with a game plan. George absolutely went above and beyond for me with everything that he did. From explaining the issue, explaining price breakdown, and just overall trust and transparency i am so glad i went to him. Sorry the review is late George, but thanks again for everything you did for me! Definitely told family and friends about the wonderful experience I had.

Georges is the best mechanic I have ever met since I have been in US. He is a trustful mechanic, very honest and he goes extra miles to help his customers. I drive 1 hour every time to come to his shop. I have recommended my friends and family to Georges Auto Repairs.
